Subject: RE: Meeting About Temple RACT

Hi, AMS and Temple:

Because of the current situation, we believe we should have the presence of attorneys at this meeting, even if the discussion is technical. I intend to invite Donna Mastro, as our regional attorney on this matter. Also from EPA would be attending myself, Cristina Fernandez- my supervisor, and Himanshu Vyas from the Office of Permits and Air Toxics.

I'll send out shortly some proposed dates and times for this meeting. Is there a preference of where should this meeting take place?

Subject: Meeting About Temple RACT

Emlyn,

Both EPA and Temple have suggested having a meeting to iron out their remaining RACT issues. Please propose some dates and times. Our plan was to have a technical meeting with no lawyers. Let us know if this would be a problem.
